SUMMARY

Data Analyst with a strong foundation in Statistical Modeling and Programming, built through a BSc in Physical Science (Mathematics, Computer Science, and Statistics). Recently completed the Google Data Analytics Professional Certificate, gaining hands-on experience in Python, SQL, R, and BigQuery for data cleaning, transformation, and analysis. Skilled in deriving actionable insights from complex datasets and presenting them through impactful visualizations and dashboards using Tableau and Power BI. Strong communicator with a proven ability to translate analytical findings into clear, data-driven decisions.

EDUCATION

BSc. in Physical Science, University of Kelaniya

Graduated in March 2025

- Specialized in Statistics, Computer Science and Pure Mathematics

Google Data Analytics Professional Certificate

Completed in October 2025

- Proficiency in SQL, R, Tableau and Excel for data analysis and visualization.

EXPERIENCE

Online Math Tutor - Third Space Global – Part Time

Jan 2023 – Jul 2025

- Tutored UK and USA students in mathematical concepts and problem-solving techniques for SAT and GCSE exams.
- Developed customized learning plans to improve student performance and confidence.

Advanced Level Physics Tutor – Part Time

2020-2022

PROJECT EXPERIENCE

Google Data Analytics - Case Study

- Conducted end-to-end data analysis on a real-world dataset, applying Google's six-step data analytics process: Ask, Prepare, Process, Analyze, Share, and Act.
- Explored and cleaned a large bike-share dataset (Divvy), merged multiple files, handled data integrity issues, and engineered new analytical variables.
- Used Rstudio to analyze patterns in rider behavior and identify key insights differentiating casual riders and annual members.
- Created compelling visualizations and data storytelling deliverables to support business recommendations aimed at improving membership conversion strategies

Research on “Facial Acne and its Impact on the Quality of Life”, (Capstone Project)

- Conducted a study among 3rd-year undergraduates at the University of Kelaniya.
- Assessed quality-of-life impact through statistical analysis and survey data.

TECHNICAL SKILLS

Programming: Python, JavaScript, C++, R, TypeScript

Data & Analytics: SQL, Google BigQuery, Tableau, Power BI, Spreadsheets, Data Visualization

Web Development: React, Node.js, HTML, CSS, MongoDB

Tools & Other: Git, GitHub, Postman, PowerPoint, Analytical Skills, Research Skills
